

## CARE AND NURTURE COMMITTEE

Care and Nurture Committee plays a vital role in strengthening connections within our Meeting by reaching out to Friends experiencing hardship and grief, as well as those we simply have not heard from. Our committee nurtures the everyday needs of individuals in our community and accompanies people through major life events. Our community can call on us for help with rides, meals, and other kinds of care. We may convene a care committee for those with chronic needs. The committee also welcomes visitors and extends invitations for newcomers to more deeply connect with our meeting.
